

Sort it.  
**BRING IT.**  
Save it!

## DON'T GIVE RECYCLING THE BOOT

Does your car boot look like this or have you sorted your rubbish today?

We know we can **recycle 60% of black bag waste** if you separate it before your visit.

If you've brought some black bags today, our team will help you sort the contents so you can recycle more of the right things, in the right way.

WORKING IN PARTNERSHIP

From January 2020, we might ask to check the contents of any black bags you bring to the household recycling centre. The idea is to save as many waste materials as possible so they can be turned into new things. Our team will be on hand to help you sort them properly, so you can recycle more and waste less.

## DID YOU KNOW?

Rescuing **RECYCLABLE** materials

from **BLACK BAG WASTE** saves

**112,400 TONNES** of **CO<sub>2</sub>** emissions

That's the same as taking  
**47,800 CARS** off the road

## DID YOU KNOW?

Over half of your black bag waste could be recycled back into good things...

**BIN YOUR**

**BAG HABIT**

You can view the queue at any of our recycling centres at [www.veolia.co.uk/birmingham](http://www.veolia.co.uk/birmingham) to help you plan your journey.
